

# Salesforce Migration Workshop

Analyze your business objectives and key metrics required to drive revenue

Evaluate current systems and data to map key Salesforce needs

Create roadmap of migration and needed feature set

## What do you get?

Sirius/FiveOut can help you plan out your move to Salesforce Commerce and Communities by providing expert advice, years of experience, and the understanding of many of the platforms you may be migrating away from. This allows you to spend more time driving revenue instead of working on platform migrations.

During the Strategy and Migration Workshops, our Salesforce experts will work with your team to review your objectives, document key metrics, and provide recommendations that help you get the most out of your investment in the Salesforce platform. At the end of this process, you will have a plan on how to migrate and an implementation plan of how to proceed, including tasks and a high-level timeline.

## About Salesforce

Salesforce unites your marketing, sales, commerce, service and IT teams into one unified platform that lets you put focus on your customers while helping your employees focus on the things necessary for delivering exceptional customer experiences.

## About Sirius/FiveOut

Sirius is a national integrator of technology-based business solutions that span the enterprise, including the data center and lines of business. FiveOut, a Sirius Agency, is an award winning full service digital agency. As experts in business transformation, we integrate technology, data, creative and marketing know-how to build exceptional customer experiences.
